

Name	Valerio Torti
Title of publication 1	“IPRs and Competition Law in Standard Setting - Objectives and Tensions,” Taylor & Francis Group, London, 2015
Year	2015
Abstract	The book examines the intersection between IPRs and Competition law in the area of standard setting. It explores the main anticompetitive conducts and compares the case law and legislation of the EU and US legal framework.
Title of publication 2	“Filling Huawei’s Gaps: the Recent German Case Law on Standard Essential Patents”, in European Competition Law Review, 2017
Year	2017
Abstract	The article takes into consideration the recent developments in standardization processes in the German legal framework. It scrutinizes the German courts’ approach after the CJEU ruling in Huawei.
Title of publication 3	“Patents and Injunctions in High Technology Industries. A Comparative Perspective”, in Mercato Concorrenza Regole, 2017
Year	2017
Abstract	The paper examines the use of injunctions as a remedy for the breach of standard essential patents. It explores recent cases in the EU and U.S. legal systems.
Title of publication 4	“IPRs, Competition and Standard Setting: in Search of a Model to Address Hold-Up”, in European Competition Law Review, 2012
Year	2012
Abstract:	The article considers the IPRs rules of standard setting organizations, and highlights the main risks in terms of patent hold up conduct.

Title of publication 5	“Enforcement of a Maximum Licensing Cap in Standardization Environment”, in European Intellectual Property Review, 2013
Year	2013
Abstract	The paper looks into the positive effects of a maximum licensing cap as an optimal model of IP licensing in the standard setting framework.
