- The Language Centre reserves the right to activate only the courses that reach the required minimum number of participants (students enrolled in courses not activated for this reason will be refunded in full).

### Teaching Methodology:

This module employs a communicative approach where students are engaged in communicating real meaning, thus engaging their natural strategies for language acquisition. The lessons are Interactive and structured in :

- Individual activities
- Pair or small group activities
- Assignments to be completed

## Goals:

This course is designed for students who can already navigate communication in familiar contexts. It includes activities focused on listening and reading, conversation, writing, and exercises to enhance grammar application.

The course content provides the student with the necessary Italian language skills to take the **CILS exam at a B1.1** level (Certificazione di Italiano come Lingua Straniera – i.e. Certificate of Italian as a Foreign Language). The CILS certificate can be used for academic or professional purposes and is recognised by the Italian Ministry of Foreign Affairs. Further self-study material and direction will be given to those students who are interested in this certification.

The course also aims to assist students in adopting an autonomous and personalized approach to language learning, encouraging research and study in their areas of interest. Topics on Italian culture, in a broad sense, will also be explored.

## Specifically, the course aims to:

- facilitate students in their acquisition of the necessary language skills in order to participate in intercultural exchange programmes,
- develop students' intercultural awareness and skills through exposure to texts both video and written
- build up students' confidence in expressing their views in Italian and to improve their fluency by engaging in discussions.
- familiarise students with relevant authentic texts in order to develop their reading skills and acquire essential vocabulary.
- review student knowledge of grammar and students' awareness of the common problem areas at pre-intermediate level in terms of accuracy and knowledge of key areas of grammar.
- develop students' communication skills in the key areas of daily, social Italian life.
- extend students listening skills by having them respond to videos and audios from the real world, thus, increasing students' knowledge of Italian life and culture.
